EMOTIONS installation procedure

IMPORTANT!

EMOTIONS can **NOT** be run from a floppy drive.

✳ Run the !EmtInstll program from the first installation disk.

✳ Open the directory into which you'd like to instal EMOTIONS (e.g. ADFS::IDE-1.$.Games.GEK).

✳ Drag the EMOTIONS icon from the EMOTIONS Installer window into the directory window.

✳ When prompted, insert the appropriate floppy disks.

✳ Click on the Continue icon when the Installer has finished.

A new directory has been created, called EMOTIONS.

To run EMOTIONS double click on the Prefs file.

EMOTIONS

You can control HENKY PENKY with these keys

Left	**= Z**
Right	**= X**
Up/Jump	**= '**
Down/Pickup/Drop down	**= /**
Fire/Press/Drop forwards	**= Return**
Dynamite	**= Spacebar**
Pause	**= F1**
Skip Intro/Suicide/Leave	**= Escape**

You can customise these keys to those that you prefer from the initial start screen. To access these options pull the mouse down on the screen that says PLAY. From here you can also set other options such as sound and graphical effects, music on/off etc.

GEK programs and **The Datafile** hope that you enjoy EMOTIONS
